Switzerland, Basel-Town, Basel

You will be part of the Functional Excellence & Operations team within Group Audit & Risk Advisory (GA&RA) located in Basel. The team consists of 5 experts specialized in different areas who help GA&RA to achieve its objectives by providing best in class services and IT solutions to the department.

During the internship your tasks will include:

- ◆ Supporting the solution owners to develop front end solutions to improve data accessibility and reporting
- ◆ Supporting with the delivery of key components for new systems e.g. Data Analytics
- ◆ Execution of programming of the developed front end solutions
- ◆ Appropriate documentation of activities

Who you are

You're someone who wants to influence your own development. You're looking for a company where you have the opportunity to pursue your interests across functions and geographies. Where a job title is not considered the final definition of who you are, but the starting point.

You are a very curious person, with a high level of interest in information management. You enjoy programming and have a strong attention to detail. You also like presenting complex information in a simple, easy-to-understand manner.

Moreover you are/have:

- ◆ An enrolled Bachelor or Master student in an information management related

area (e.g. information technology, statistics, math etc.)

- ◆ Substantial experience with SQL database
- ◆ Experience with Tableau and/or SAP Business Objectives or other data aggregation is a plus
- ◆ Strong team player, social and problem-solving skills and a pronounced service orientation
- ◆ Self-starter and able to work independently
- ◆ Good verbal and written communication skills in English

The preferred start date of the internship is January 2017. Applications need to include a CV and a motivation letter.

Due to regulations non-EU/EFTA citizens must provide a certificate from the university stating that an internship is mandatory as part of the application documents.
