

# outthink ordinary

**Bei IBM machen Sie nicht irgendein Praktikum bei irgendeinem Unternehmen. Bei uns übernehmen Sie herausfordernde Aufgaben, erleben spannendes Business hautnah und sammeln Praxiserfahrungen, die Sie von der Masse abheben.**

Internship User Experience Designer, Design Researcher

**Abteilung** Hybrid Cloud

**Ort** Böblingen

**Dauer** 6 months

**Beginn** variable

## Aufgabengebiet

IBM Design's mission is simple: put the user at the center of our products. If you are a passionate problem-solver, able to empathize with users and turn that empathy into design insights, we want you to join us in creating design experiences. In an agile environment, join our talented designers and engineers to create new generation interfaces and interactive prototypes for web and mobile applications.

Be part of an international product team, train your skills and expertise as a UX Designer or Design Researcher and gain insights in other design disciplines.

## Anforderungen

- Understand human-centered design
- Solid understanding of usability, interaction design, visual design
- Experience with visual or interactive design tools
- Curiosity and basic knowledge in web and mobile technologies
- English language skills (written and verbal)
- a Portfolio with examples of your work

## Kennziffer
